 American Association for Hand Surgery**

Tips from the Masters: Stacking Your Deck

Description:

With the fast-paced changes occurring in orthopaedics, anyone treating hand and upper extremity problems needs to know what treatments work best for their patients. This symposium offers time-tested techniques and evidence-based solutions for dealing with a myriad of acute injuries and chronic pathology affecting the upper extremity, including fractures and soft tissue injuries, peripheral nerve problems, and arthritis about the hand and wrist.

Learning Objectives:

The objective of this course is to provide the most current yet practical approach to the most common conditions facing practicing hand surgeons.

Upon completion of the course the learner will be confident in approaching everything from trauma including boney and soft tissue injury to managing arthritis of the hand and wrist.

In addition the course will offer an update on “what every hand surgeon’ should know about less commonly encountered conditions such as pediatric trauma and vascular disorders

Credit Hours

8.5 AMA PRA Category 1 Credits™

David S. Ruch, MD, Program Co-Chair
David R. Steinberg, MD, Program Co-Chair

7:30 am – 8:55 am

Session I – Extensor and Flexor Tendon Injuries

Moderator: *Donald H. Lee, MD*

7:30 am – 7:35 am	Introductions <i>David S. Ruch, MD, David R. Steinberg, MD, L. Scott Levin, MD, FACS</i>
7:35 am – 7:45 am	How WALANT is Changing Hand Surgery <i>Ryan Garcia, MD</i>
7:45 am – 7:55 am	Mallet Fingers: When I Recommend Surgery <i>John D. Lubahn, MD, FACS</i>
7:55 am – 8:05 am	Sagittal Band Injuries “How I Approach Acute and Chronic Injury” <i>Ghazi M. Rayan, MD</i>
8:05 am – 8:15 am	My Approach to Zone 1 and Zone 2 Flexor Tendon Injuries: How I Do It and Why! <i>Fraser J. Leversedge, MD</i>
8:15 am – 8:25 am	When Do I Decide That a 2-Stage Repair is Going to be Successful and When Do I Salvage? <i>Martin I. Boyer, MD, FRCS(C)</i>

8:25 am – 8:35 am

What Are My Top Three Options for Coverage of Soft Tissue Defects in the Hand?
Marc J. Richard, MD

8:35 am – 8:45 am

The Approach to Vascular Disease of the Hand: What Every Hand Surgeon Should Know
William C. Pederson, MD, FACS

8:45 am – 8:55 am

Mass Wisdom and Q&A

8:55 am – 9:10 am

BREAK

9:10 am – 11:20 am

Session II – Nerve Injuries

Moderator: *Jaimie T. Shores, MD*

9:10 am – 9:20 am

Carpal Tunnel Syndrome: Should We Start or Stop Doing Endoscopic Releases?
Robert J. Strauch, MD

9:20 am – 9:30 am

I Have a Patient with Cubital Tunnel Syndrome: What the Evidence Tells Me to Do
Neal C. Chen, MD

9:30 am – 9:40 am

What Are My Indications for Radial Tunnel Release?
Jennifer Moriatis Wolf, MD

9:40 am – 9:50 am

Spontaneous AIN and PIN Palsy: Should They be Managed Differently?
Peter M. Murray, MD

9:50 am – 10:00 am

When Do I Perform a Direct Nerve Repair and Tips to Getting It Right
TBD

10:00 am – 10:10 am

When is an Allograft Indicated? Is Auto graft Used Anymore?
Jaimie T. Shores, MD

10:10 am – 10:20 am

Nerve Transfers for Brachial Plexus Injuries
Amy M. Moore, MD

10:20 am – 10:30 am

Update on Improving Results of Primary Nerve Repair – Have We Gotten Better?
Warren C. Hammert, MD

10:30 am – 10:40 am

Role of Supercharging a Nerve Repair
Jonathan E. Isaacs, MD

10:40 am – 10:50 am

What is the Role for Targeted Muscle Reanimation?
R. Glenn Gaston, MD

10:50 am – 11:10 am

Key Note Address: What is the Role of Hand Transplant Now and in the Future?
L. Scott Levin, MD, FACS and TBD

11:10 am – 11:20 am	Mass Wisdom and Q&A	2:50 pm – 3:00 pm	Mass Wisdom and Q&A
11:20 am – 12:20 pm	LUNCH	3:00 pm – 3:15 pm	BREAK
12:20 pm – 2:10 pm	Session III – Fractures	3:15 pm – 5:25 pm	Session V – Wrist Instability and Arthritis
	Moderator: <i>John V. Ingari, MD</i>		Moderator: <i>David J. Bozentka, MD</i>
12:20 pm – 12:30 pm	Acute PIP Fractures: When Do I Open and When Do I Ex Fix? <i>Randip R. Bindra, FRCS, MCh Orth</i>	3:15 pm – 3:25 pm	What Works for Acute SL Tears? <i>Michael J. Sandow, BMBS, FRACS, FAOrthA</i>
12:30 pm – 12:40 pm	Hemi Hamate Grafts: When are They Indicated and When are They Not? <i>Peter J. Stern, MD</i>	3:25 pm – 3:35 pm	What Works for Chronic SL Tears? <i>Andrea Atzei, MD</i>
12:40 pm – 12:50 pm	Proximal Phalanx Fractures: How I Achieve a Good Result <i>Douglas P. Hanel, MD</i>	3:35 pm – 3:45 pm	How I Approach Midcarpal Instability <i>Alexander Y. Shin, MD</i>
12:50 pm – 1:00 pm	Metacarpal Neck Fractures: When are Pins Not Enough? <i>Marc J. Richard, MD</i>	3:45 pm – 3:55 pm	Is There Anything Short of a Fusion That Will Work for an LT with VISI? <i>Marco Rizzo, MD</i>
1:00 pm – 1:10 pm	Metacarpal Shaft Fractures: When I Pin and When I Plate <i>Mihir J. Desai, MD</i>	3:55 pm – 4:05 pm	CMC Arthritis: Do I Still do an LRTI? <i>Sanjeev Kakar, MD, FAOA</i>
1:10 pm – 1:20 pm	Scaphoid Fractures: What has Changed in 20 Years <i>T. Greg Sommerkamp, MD</i>	4:05 pm – 4:15 pm	Anchor, Suture, or Tendon - Do They Work Long Term? <i>Amy L. Ladd, MD</i>
1:20 pm – 1:30 pm	How to Approach and Graft and Heal a Scaphoid Nonunion Without a Vascularized Graft <i>Brian D. Adams, MD</i>	4:15 pm – 4:25 pm	CMC Arthroplasty: Is There an Advantage to Replacement? <i>Scott W. Wolfe, MD</i>
1:30 pm – 1:40 pm	Distal Radius Fractures: The Evidence Supports Pins, so Why Plate? <i>Brandon E. Earp, MD</i>	4:25 pm – 4:35 pm	My CMC Procedure Failed! What Should I Do? <i>Dean G. Sotereanos, MD</i>
1:40 pm – 1:50 pm	Distal Radius Fractures: When is a Volar Plate Not Enough? <i>Jesse B. Jupiter, MD</i>	4:35 pm – 4:45 pm	What is the Role of Arthroscopy in Wrist Arthritis? <i>A. Lee Osterman, MD</i>
1:50 pm – 2:00 pm	Pediatric Hand Fractures: Avoid Getting Burned <i>Peter M. Waters, MD</i>	4:45 pm – 4:55 pm	I Have a SLAC Wrist: How Do I Want I Treated? <i>A. Lee Osterman, MD</i>
2:00 pm – 2:10 pm	Mass Wisdom and Q&A	4:55 pm – 5:05 pm	Who is the Candidate for a Replacement? <i>Marco Rizzo, MD</i>
2:10 pm – 3:00 pm	Session IV – DRUJ Injury and Arthritis	5:05 pm – 5:15 pm	Mass Wisdom and Q&A
	Moderator: <i>Nikolas H. Kazmers, MD, MSE</i>	5:15 pm – 5:25 pm	Closing Comments and Adjournment
2:10 pm – 2:20 pm	Acute TFCC Injuries: How I Fix Them and Rehab Protocol <i>Jeffrey Yao, MD</i>		
2:20 pm – 2:30 pm	Chronic TFCC Tears: When Does a Repair Become a Reconstruction? <i>David M. Brogan, MD, MSc</i>		
2:30 pm – 2:40 pm	DRUJ Arthritis: Does Darrach vs. Sauve Kapandje vs. Arthroplasty? How I Choose <i>Mark E. Baratz, MD</i>		
2:40 pm – 2:50 pm	Salvage of the DRUJ: A Time for Prosthesis and a Time for a One Bone Forearm <i>Douglas P. Hanel, MD</i>
